Tour Description

There is a popular Japanese saying, “Do not say fine without seen the Nikko”. Nikko is a beautiful mountainous area with rich natural beauty. Nikko will bring you the finest feeling of nature with breezing waterfalls, bluish lakes, and lush landscapes. We have carefully arranged a Nikko day tour during the ISE2018 to give you the best experience of this rich nature.

The tour includes one of the world cultural heritage site, Nikko Toshogu shrine, which opened for public recently after major refurbishments. You will witness the world famous three wise monkeys “I do not know · I do not talk · I do not listen” there.

The Kegon Falls is the most famous among the famous 48 waterfalls of Nikko, and it is one of the three main waterfalls in Japan. People amazed at the splendid beauty of the landscape and the splashing water falling from 97 meters.

The mount Akagi which extends over lake Chūzenji and Senjogahara plateau is a famous hiking trail. The lake Chūzenji formed 20,000 years ago when volcanic mountain Nantai erupted and blocked a river. Now the lake and the mountains are an eye-catching landscape which you will be loved to see. The Senjogahara plateau was once a Lake and now has become a beautiful plateau of over 400 hectares. Apart from those, bird-watching and witnessing over 350 plant species during the trip will boost your experience.

Even though you have visited Nikko before, you may feel a difference since Nikko is refreshing each day. We will ensure your safety and happiness all through the day.

Tour will start from Omiya ward Office Ent bus stop at 08:30, and return to the same point at 19:00. You will enjoy the lunch served on the bus.
